ABOUT

I'm a Full Stack Developer with hands-on experience in the MERN stack. I enjoy building web applications from designing clean UIs to building APIs and databases. Currently pursuing my degree while working on real-world projects.

EXPERIENCE

- **Full Stack Developer (Internship)** Aug 2025 – Jan 2026
Tech Surya IT Solution | Chhatrapati Sambhaji Nagar
 - Worked on both frontend and backend of web applications throughout the internship.
 - Built and consumed REST APIs, handled database operations, and integrated frontend with backend services.
 - Strengthened my understanding of JavaScript, Express.js, and MongoDB through real project work.
 - Delivered tasks on schedule while maintaining clean, readable code.

PROJECTS

- **Billing Management System**
React.js · Node.js · Express.js · MongoDB · REST APIs
 - Built a full-stack billing system that lets businesses create and track customer invoices.
 - Implemented product management, auto-calculation of totals, and invoice generation.
 - Designed the database schema in MongoDB to handle billing records and customer data efficiently.

EDUCATION

- **Bachelor of Computer Science (B.C.S.)** 2024 – 2027
Dr. Babasaheb Ambedkar Technological University | Bajaj Nagar, Ch. Sambhaji Nagar
 - Focusing on software development, databases, and modern web technologies.
 - Building side projects using the MERN stack alongside coursework.
 - Exploring TypeScript and AI integrations in personal projects.
